

Environmental Policy

FILTEC Ltd recognises its responsibilities as a leading supplier of water and wastewater treatment systems. FILTEC is determined to conduct operations and activities in a manner that is environmentally responsible and befitting of a good corporate neighbour. FILTEC shall set achievable objectives, goals and targets to comply with applicable environmental legislation and other requirements to which the organisation subscribes, including maintaining a certified ISO 14001 standard management system.

Our documented Environmental Management System demonstrates how we do this, and as part of the Environmental Management System, Management will set & review objectives that are regularly reviewed and communicated to ensure they are understood at all levels of the organisation.

Management will provide the necessary resources to enable these policies to be effectively implemented for the achievement of the organisations objectives. All Staff are required to give total support to the Environmental Management System by ensuring complete adherence to documented procedures & promotion of continual improvement in the prevention of excess pollution, waste & harm to our environment.

FILTEC will commit to the care of the environment & will endeavor to control all the environmental aspects of the organization.
